

TRANSPORTATION

Downtown Western Springs is blessed with multiple modes of transportation that must be accommodated in an integrated system. This board highlights key elements of the transportation system, and highlights opportunities and challenges to be addressed in the plan.

Western Springs: Origins and Mode of Access

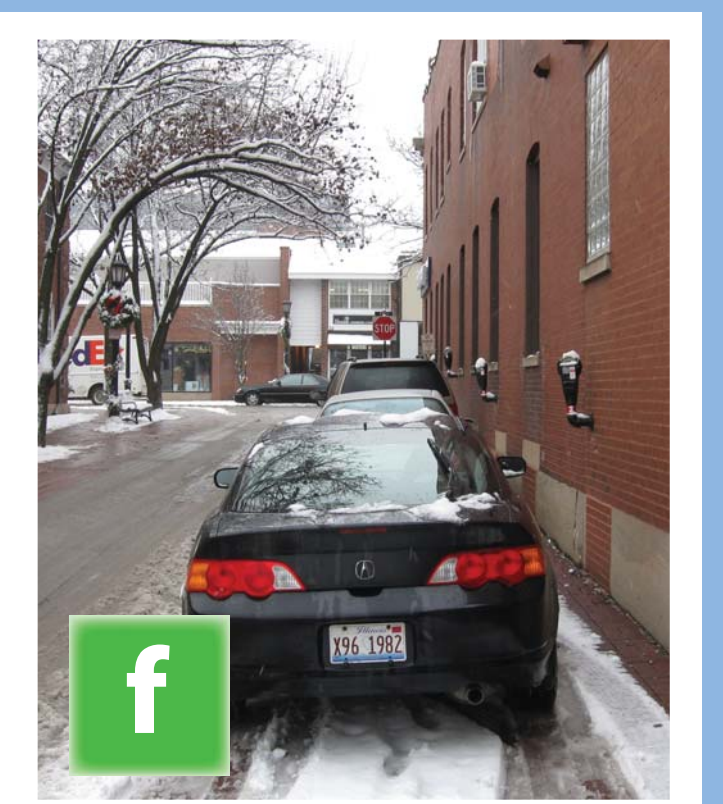

- Is additional bike parking needed? Can downtown bike access/circulation be enhanced?
- The Village has grant to enhance the Metra platform area – what should it look like?
- What can be done to improve pedestrian safety?
- Plan must accommodate business and commuter parking.
- New development must provide additional parking.
- Seek creative ways to add parking.
- How can Pace service be enhanced?
- Should additional crosswalks be incorporated elsewhere?
