

APPENDIX

Engagement Participants

The below names represent many, but not all, of the people who engaged in the planning process for Carrboro Connects. These people registered for and shared ideas on the project website, participated in one or more of the three virtual community workshops, and/or submitted comments on one of the plan drafts. Thank you to all who are listed here for your time and input, and thanks to many more individuals not listed by name who participated anonymously in the many engagement efforts that shaped this document.

Note: Names listed here are a mix of full names shared with the team, Zoom names, and screen names used on the project website.
